

CloudStream

CAPABILITIES DECK · 2026

Scale revenue. Automate everything else.

AI automation, growth engines and secure cloud for growing businesses, built and run by one accountable team.

WHAT WE DO

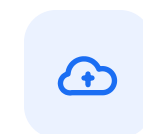

Growth engines

Websites, SEO, ads and CRM automation

AI & automation

AI assistants, AI agents and workflows

Cloud & security

Google Cloud, Azure and compliance

~30% faster response to new leads

One partner for AI, growth and cloud.

CloudsStream helps growing businesses turn technology into revenue and time back. We design, build and run the systems behind your growth: the website and CRM that capture leads, the AI and automation that handle the busywork, and the secure cloud it all runs on.

- ✓ **Senior-led.** You work directly with experienced people, not a hand-off chain.
- ✓ **Built around your tools.** We fit Google Workspace, Zoho, your CRM and your systems, not the other way round.
- ✓ **Transparent.** Clear timelines, progress updates and documentation for everything we build.

Founder's background

Technical lead experience in global tech

100%

Yours to keep

You own every system we build and manage

THE PROBLEM

Most businesses don't have a lead problem. They have a **follow-up** problem.

Growth stalls in the gaps between tools and people. These are the four we see most.

Leads go cold

Inquiries from ads, calls and forms wait hours or days for a reply, and the best ones book elsewhere.

Admin eats the day

Scheduling, data entry and invoices are done by hand, so skilled people spend hours on busywork.

Knowledge is scattered

Answers live in PDFs, inboxes and people's heads, so the same questions get asked again and again.

Tools don't talk

Website, CRM, email and spreadsheets each hold part of the picture, and nobody sees the whole pipeline.

Our approach: connect your tools into one system, so leads are answered fast, busywork runs itself and everyone sees the same picture.

Three capabilities. One connected system.

Growth engines

A steady pipeline of qualified leads, and a clear view of what drives it.

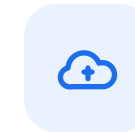

- ✓ Websites rebuilt for speed and conversion
- ✓ SEO, content and AI-search visibility
- ✓ Google and Meta ad campaigns
- ✓ CRM setup and lead automation, including Zoho

AI & automation

AI that knows your business, and workflows that run on their own.

- ✓ AI assistants that answer from your documents, with sources
- ✓ AI agents on n8n, using Claude, OpenAI or Gemini
- ✓ Automated scheduling, intake and invoicing
- ✓ Integrations across CRM, email, Slack and databases

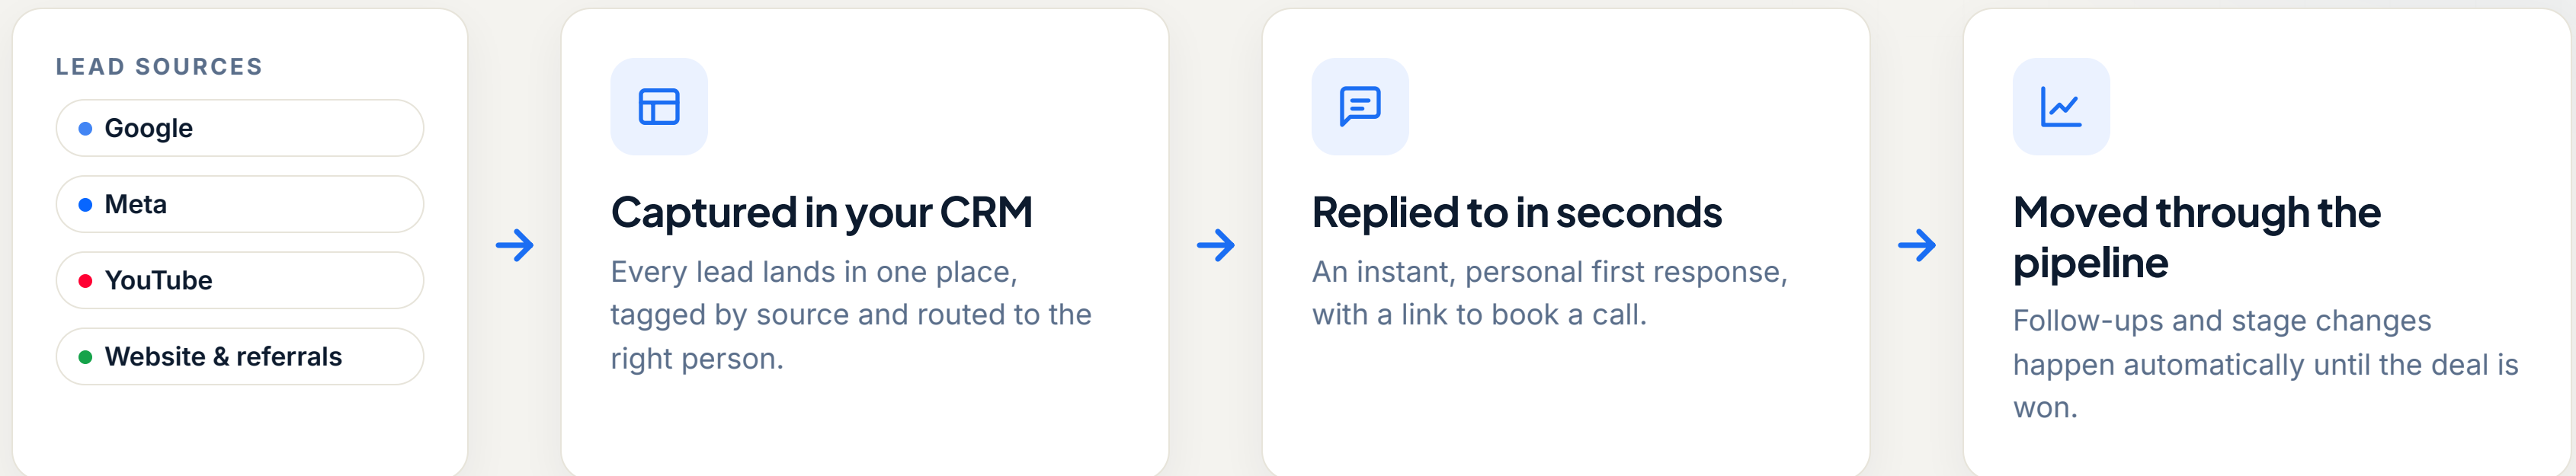

Cloud & security

Secure, well-run foundations that scale with you.

- ✓ Google Cloud and Azure architecture and migration
- ✓ Secure workspaces that support HIPAA compliance
- ✓ DevOps, CI/CD and infrastructure as code
- ✓ Managed cloud, monitoring and cost control

Every lead captured. Every follow-up automatic.

We connect your marketing, website and CRM into one engine, so leads get a reply in seconds and move through your pipeline without manual chasing.

<2s **Fast websites**

Top 3 **Search visibility**
Core program searches, incl. AI search

~30% **Faster lead response**
With Zoho CRM automation

AI that knows your business, and does the busywork.

AI assistants on your own documents

Your team asks in plain language and gets accurate answers, with the source.

What's our cancellation policy for annual plans?

Annual plans can be cancelled within 30 days for a full refund. After that, a prorated credit applies.

Back office on autopilot

• Invoice received

• Data extracted

• Synced to CRM

• Team notified

Secure cloud foundations that scale with you.

Across Google Cloud Platform and Microsoft Azure, from first migration to day-to-day operations.

Architecture & migration

Planned, low-disruption moves to the cloud, on a foundation built for growth.

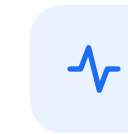

Security & compliance

Security designed in from the start, supporting HIPAA, SOC 2 and similar frameworks.

DevOps & automation

CI/CD pipelines and infrastructure as code, so releases are fast and repeatable.

Managed cloud

Monitoring, cost control and ongoing care, without a large in-house ops team.

In practice: Therapy at Home's team reaches its healthcare software only through a locked-down Google Cloud workspace, keeping patient data inside a managed, secured boundary.

Real results for real clients.

HEALTHCARE · IN-HOME THERAPY

Secure cloud workspace, automated scheduling, Zoho CRM lead automation, new website and SEO.

- ~5 hrs** saved every week on scheduling
- ~30%** faster response to new leads
- ~20%** more organic search traffic

HEALTHCARE EDUCATION

Website rebuild, vendor migration, SEO and content, and Meta campaigns for enrollment leads.

- 193K** Google impressions in three months
- <2s** page loads, down from ~6s
- Top 3** for core program searches

ENTERPRISE TECHNOLOGY · IT SERVICES

Growth consulting, go-to-market for an SAP-focused product, technical SEO and content.

- ~25%** faster page loads
- ~15%** more organic traffic
- 2** offers positioned for market

What our clients say.

They took full charge of dealing with our previous contractor to migrate all our systems.

"They have been very transparent in the work they have done for us, detailing project timelines and progress, documenting all of their work, and most importantly, providing us with tangible results."

Eraad

Business/Technology Operations Administrator

What I value most is that it's one team that understands our whole operation.

"Our intake team moved off spreadsheets onto Zoho CRM, set up around how we actually work, and new leads are now captured and routed automatically, so no referral slips through the cracks."

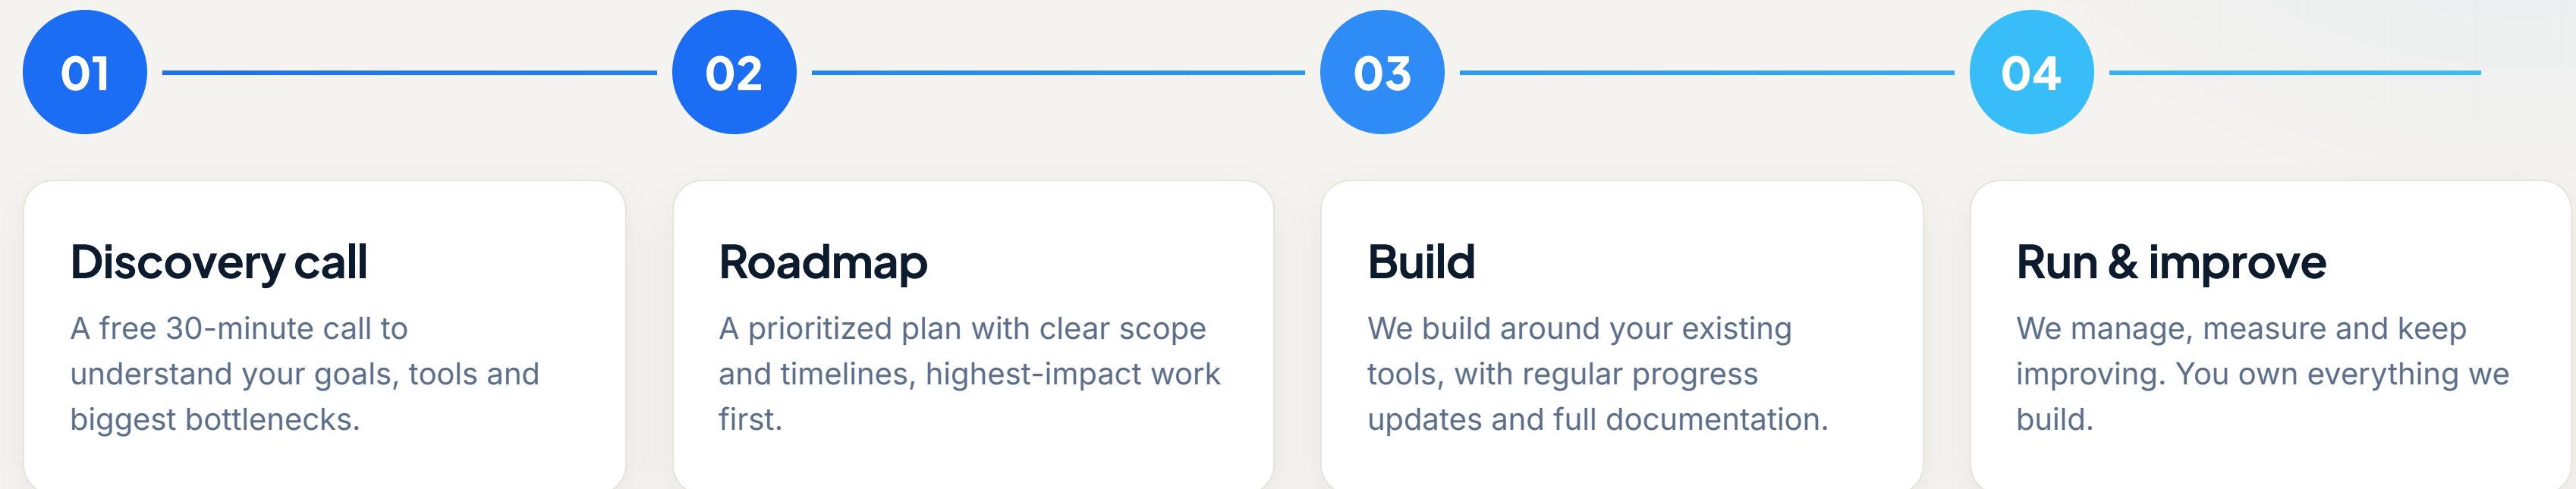

Muddassir Mohiuddin

Founder

From first call to running systems.

We start with the problem that matters most, solve it properly, then move to the next.

-  Every engagement tied to a business outcome
-  Direct access to senior people
-  Your systems, your data, your ownership

Shoaib Mohiuddin

Founder & Chief Executive Officer

Technical lead experience at Microsoft and Oracle.
Bridges business strategy and technology execution.
